EXPERIENCE

FREELANCE WEB & APP DEVELOPER

Self-Employed

2024 – Present

- Developed AI-powered web applications using React.js, Java, and AI APIs with interactive UI/UX.
- Built custom e-commerce platforms (Flipkart/Amazon Clone) with secure authentication, payment integration, and real-time product updates.
- Created a real-time weather forecasting app using OpenWeather API, helping users access live weather reports.
- Designed and optimized responsive UIs using CSS frameworks like Tailwind CSS and Material UI.
- Collaborated with clients to deliver high-performance websites, reducing load times by 30%.

PROJECTS

- Weather Web**
Tech Stack: React.js, OpenWeather API.
A real-time weather forecasting web app that provides users with weather updates based on their location.
- E-commerce Clone (Flipkart/Amazon)**
Tech Stack: HTML, CSS, JavaScript.
A fully functional e-commerce clone with a product catalog, cart system.
- AI-Powered Chatbot**
Tech Stack: HTML, CSS, JavaScript, AI API.
Built an interactive AI chatbot for answering user queries with natural language processing.
